

Economic Development Survey

Antithesis Research is working on the Economic Development Element for the Sustainable Community Master Plan. The community has identified that there is need for jobs. We need your assistance in answering the questions below.

Please return by December 1st, 2011.

“Economic development with life/work balance”

- 1) If there were 3 things about the life of our people that should absolutely stay the same, what would those be?

- 2) Which values would you say the tribe is doing the best job of maintaining? Struggling to maintain?

- 3) What cultural practices do you think are most important to maintaining our values?

- 4) From our previous surveys, the values of working together and helping each other were identified, how can we use these to create economic activity?

- 5) Of the Tribe’s economic development activities what do you think is most compatible with our culture?

Least compatible?

- 6) Can you think of aspects of our traditions or culture that you think we should make part of our future economic development?

- 7) What do we need to do to better prepare our youth to help them have a bright economic future?
