

Spokane Tribal Hatchery PRAS Implementation and Build

RFP25-002

Addendum 1

Questions for Spokane Tribe of Indians

1. Section VII. Vendor Specifications lists Minimum Qualifications the build contractor must meet. Please advise on the following:

- a. Can the construction of juvenile or adult fish passage projects be substituted for hatchery facility experience?

RESPONSE: Yes, this can be substituted for experience.

- b. Can the construction manager substitute juvenile or adult fish passage projects for hatchery facility experience?

RESPONSE: No, we want the project manager to direct the contractors during the construction of the project.

- c. A requirement listed states the contractor must show "Design and operation of recirculating aquaculture systems (RAS) or partial recirculating aquaculture (PRAS) systems preferred." Since this project is already designed, can this requirement be eliminated and/or revised to address just the construction efforts of these systems?

RESPONSE: Experience with construction of these systems would be beneficial. Although, does not disqualify.

2. A bid extension until *March 20, 2025* is requested.

RESPONSE: Approved we will extend and post to RFP

3. In line with Section III. Site Visitation, we request a site visit ASAP.

RESPONSE: Site Visit will be 3/5/2025 @ NEED A TIME
